

The following text is about the account payable process. It begins when you send to the receiving department.

When sending to the receiving department is completed, creating a receiving report needs to be done.

Once creating a receiving report occurs, the process is split into 3 parallel branches: doubling check a three-way match, confirming all documents have been amended and gathering the vendors invoice.

When gathering the vendors invoice is completed, gathering the receiving report should be done.

Once all pre-tasks are executed, then one or more of the following paths should be executed: scheduling the payment, stamping all documents.

After scheduling the payment, checking dates to avoid penalty charges should be done.

The process is now completed.
