

The following description is about the account payable process. It begins when you file a copy for internal records.

Once filing a copy for internal records occurs, creating a receiving report should be done.

Once creating a receiving report occurs, one or more of the following paths should be executed: doubling check a three-way match, confirming all documents have been amended, gathering the receiving report.

After confirming all documents have been amended, one or more of the following paths should be executed: reporting errors to relevant team member, gathering the vendors invoice.

Afterwards, the next tasks should be checking dates to avoid penalty charges and scheduling the payment, they should be done in parallel.

When checking dates to avoid penalty charges is completed, one or more of the following paths should be executed: storing in paid invoice file, entering the invoice into the accounts payable account.

The process is now completed.
