

The text below is about the account payable process. It begins when you send to the receiving department.

After sending to the receiving department, creating a receiving report should be done.

Once creating a receiving report occurs, the process is split into 2 parallel branches: gathering the vendors invoice and gathering the receiving report.

Once all pre-tasks are executed, then the next tasks should be stamping all documents and storing in paid invoice file, they should be done in parallel.

The process is now completed.
