

The following description is about the account payable process. It begins when you send to the vendor accounting department.

After sending to the vendor accounting department, creating a receiving report should be done.

Once creating a receiving report occurs, one or more of the following paths should be executed: doubling check a three-way match, gathering the vendors invoice, confirming all documents have been amended.

Then, the next tasks should be storing in paid invoice file and entering the invoice into the accounts payable account, they should be done in parallel.

The process is now completed.
