

The following text is about the account payable process. It starts with entering purchase order details.

When entering purchase order details is completed, you need to create a receiving report.

When creating a receiving report is completed, one or more of the following paths should be executed: reporting errors to relevant team member, gathering the vendors invoice.

Then, the next tasks should be storing in paid invoice file and scheduling the payment, they should be done in parallel.

The process is now completed.
