

The following description is about the account payable process. It begins when you send to the senior accountant in your department.

Once sending to the senior accountant in your department occurs, creating a receiving report needs to be done.

After creating a receiving report, the next tasks should be reporting errors to relevant team member and confirming all documents have been amended, they should be done in parallel.

Once confirming all documents have been amended occurs, you need to gather the receiving report.

Once all pre-tasks are executed, then the process is split into 2 parallel branches: stamping all documents and entering the invoice into the accounts payable account.

Once entering the invoice into the accounts payable account occurs, creating voucher for the documents needs to be done.

The process is now completed.
