

The text below is about the account payable process. It starts with sending to the vendor accounting department.

Once sending to the vendor accounting department occurs, you need to create a receiving report.

After creating a receiving report, the next tasks should be reporting errors to relevant team member, gathering the receiving report and doubling check a three-way match, they should be done in parallel.

When reporting errors to relevant team member is completed, confirming all documents have been amended should be done.

Once all pre-tasks are executed, then you need to check dates to avoid penalty charges.

The process is now completed.
