

The following description is about the account payable process. It starts with sending to the vendor accounting department.

When sending to the vendor accounting department is completed, you need to create a receiving report.

When creating a receiving report is completed, the next tasks should be gathering the vendors invoice and doubling check a three-way match, they should be done in parallel.

When doubling check a three-way match is completed, the process is split into 2 parallel branches: gathering the receiving report and reporting errors to relevant team member.

Once all pre-tasks are executed, then the next tasks should be checking dates to avoid penalty charges, storing in paid invoice file and entering the invoice into the accounts payable account, they should be done in parallel.

When checking dates to avoid penalty charges is completed, the next tasks should be creating voucher for the documents and stamping all documents, they should be done in parallel.

When creating voucher for the documents is completed, scheduling the payment should be done.

The process is now completed.
