

The following text is about the account payable process. It starts with sending to the senior accountant in your department.

When sending to the senior accountant in your department is completed, creating a receiving report should be done.

Once creating a receiving report occurs, the process is split into 2 parallel branches: confirming all documents have been amended and gathering the vendors invoice.

When gathering the vendors invoice is completed, reporting errors to relevant team member should be done.

Once all pre-tasks are executed, then scheduling the payment should be done.

The process is now completed.
