

The text below is about the account payable process. It begins when you send to the receiving department.

Once sending to the receiving department occurs, creating a receiving report needs to be done.

When creating a receiving report is completed, you need to double check a three-way match.

Once doubling check a three-way match occurs, one or more of the following paths should be executed: storing in paid invoice file, entering the invoice into the accounts payable account, checking dates to avoid penalty charges.

After entering the invoice into the accounts payable account, scheduling the payment should be done.

The process is now completed.
