

The text below is about the account payable process. It begins when you file a copy for internal records.

When filing a copy for internal records is completed, creating a receiving report should be done.

Once creating a receiving report occurs, one or more of the following paths should be executed: doubling check a three-way match, confirming all documents have been amended, reporting errors to relevant team member.

After that, you need to stamp all documents.

The process is now completed.
