

The text below is about the account payable process. It begins when you send to the receiving department.

After sending to the receiving department, you need to create a receiving report.

When creating a receiving report is completed, the next tasks should be confirming all documents have been amended and reporting errors to relevant team member, they should be done in parallel.

Once all pre-tasks are executed, then entering the invoice into the accounts payable account needs to be done.

The process is now completed.
