

The following description is about the account payable process. It begins when you send to the receiving department.

When sending to the receiving department is completed, creating a receiving report should be done.

Once creating a receiving report occurs, the next tasks should be gathering the receiving report and confirming all documents have been amended, they should be done in parallel.

When gathering the receiving report is completed, reporting errors to relevant team member should be done.

Once all pre-tasks are executed, then one or more of the following paths should be executed: creating voucher for the documents, storing in paid invoice file.

The process is now completed.
