

The following description is about the account payable process. It starts with sending to the senior accountant in your department.

Once sending to the senior accountant in your department occurs, creating a receiving report needs to be done.

Once creating a receiving report occurs, the next tasks should be reporting errors to relevant team member, gathering the vendors invoice and doubling check a three-way match, they should be done in parallel.

When doubling check a three-way match is completed, gathering the receiving report needs to be done.

Once all pre-tasks are executed, then the next tasks should be storing in paid invoice file, checking dates to avoid penalty charges and stamping all documents, they should be done in parallel.

The process is now completed.
