

The following text is about the payable process that begins when you send a letter to the senior accountant in your department.

Once the send to the senior accountant in your department happens, creating a receiving report needs to be completed.

Once creating a receiving report occurs, the process is split into 2 parallel branches: verifying all documents have been amended and gathering the vendor invoices.

Once the vendor invoice collection occurs, a three-way match must be doubled.

Once all of the pre-tasks are executed you must check the date to avoid penalties.

The process is now complete.
