

The following text is about the payable process which starts when you send to the receiving department.

When sending to the receiving department is completed, a receiving report needs to be created.

After creating a receiving report, the process is split into 2 parallel branches : confirming that all documents have been amended and gathering the receiving report.

Once the gathering of receiving report occurs, the process is split into 2 parallel branches : reporting the errors to the relevant team member and doubling check a three-way match.

When the reporting of errors to the relevant team member is completed, the vendors invoice needs to be done.

When all pre-tasks are executed, then one or more of the following paths should be executed: filing the invoice to pay and scheduling the payment.

The process is completed now.
