

The following text is about the account payable process. It begins when you send to the senior accountant in your department.

Once a copy is sent to the senior accountant in your department, you have to create a receiving report.

When creating a receiving report is completed, errors need to be reported to the relevant team member.

After reporting errors to the relevant team member, the process is split into 2 parallel branches: stamping all documents and entering the invoice into the payable account.

Now the process is complete.
