

The following description is about the Account payable process and begins when you send the senior accountant in your department.

Once a formal report to the senior accountant in your department appears, it needs to be done.

Once a receiving report is created, the process is divided into two parallel branches: gathering the receiving report and gathering the vendor invoice.

After acquiring the receiving report, a three-way match should be checked by the double check.

Once all pre-tasks are executed, then creating a voucher for the documents should be done.

The process is now completed.
