

The following text is about the account payable process, which begins with the sending to the senior accountant in your department.

When a sms to the senior accountant in your department is completed, creating a sms report should be done.

After creating a receiving report the next task should be reporting the errors to the relevant team member and collecting the vendor invoice. These should be done in parallel.

Once all the pre-tasks have been completed the payment should be scheduled.

The process is now concluded.
