

The text below is about the Account Receivable Process, which starts with sending to the Receiving department.

Once the Sending to the Receiving department happens, the creating of a Receiving Report needs to be done.

When the creation of a receiving report is completed, the process is divided into 2 parallel branches : doubling a 3-way match and reporting errors to the relevant team member.

Once all pre-tasks are executed, one or more of the following paths should be executed : creating voucher for the documents, including the invoice into the account payable.

The process is now complete.
